OBJECTIVES

Work in a software development career with the goal of becoming a project leader or manager in the future.

SKILLS

BACK END | Java • Hibernate • Python • Spring • C++

FRONT END | Laravel • PHP • React • JavaScript • Bootstrap • HTML • CSS

DATABASE | MYSQL • PostgreSQL

DESIGN PATTERNS| MVC • DDD

OTHERS| Flutter • Kotlin • Joomla • Redes

EXPERIENCE

Brazilian Army| Joomla • Laravel • MYSQL • JavaScript • HTML • CSS
Mar 2021 – Jun 2025

- Transformed complex digital structures into functional and integrated systems, optimizing workflows and improving overall performance.

- Achieved a 71% reduction in system response time after restructuring institutional servers and websites.

- Maintained and continuously improved internal and external web pages, developing features using Joomla.

- Managed servers and MySQL databases, ensuring high availability and data integrity.

- Optimized the physical and logical network for greater stability and communication efficiency.

- Provided direct support to the command team with on-demand digital solutions, contributing to strategic decision-making.

EDUCATION

IFMS – Federal Institute of Mato Grosso do Sul

Bachelor's Degree in Systems Analysis and Development • Corumbá - MS

Mar 2020 – Jun 2025
During my studies, I developed strong skills in programming, algorithms, databases, backend, web and mobile development, as well as fundamentals in software engineering, computer networks, and information security.

CERTIFICATIONS

Cisco – Introduction to Cybersecurity • 09/2020
Cisco – Cybersecurity Essentials • 09/2020
5CTA – Internship in Networks and Linux Servers • 03/10 – 31/10/22
5CTA – Internship in Network and Systems Security • 01/11 – 30/11/22
5CTA – Joomla Internship • 01/05 – 26/05/24
Cisco – Python Essentials 1• 04/2025
Cisco – NDG Linux Unhatched • 04/2025

LANGUAGES

English – Intermediate (B2).

Portuguese – Native, fluent.

Spanish – Intermediate (B2).

CURRENT PROJECT

Currently developing a Laravel-based system for the Federal Institute of Mato Grosso do Sul. Github
